

REMARKS

Prior to entry of the above amendments in this application, claims 22-32, 36-44, 46-62 and 93-102 are pending. Claims 22-32, 36-44, 46-62 and 92-102 are rejected as being based upon a defective reissue oath/declaration under 35 USC § 251. Claims 36-44, 46-62 and 93-102 are rejected as being broadened in a reissue application filed outside the two-year statutory period. The Office Action is non-final and was responsive to Applicant's communication filed or about May 8, 2008.

Amendments to the Claim

Applicant requests the amendments to the claims be entered into this reissue application. No new subject matter is being entered and the elements added are found in the surviving original claims 22-32 and in the specification.

Defective Reissue Declaration

Applicant has filed and attached hereto a new reissue declaration that addresses the issues the Office asserted to be defective.

Improper Broadening Rejection

Applicant has cancelled a number of claims and amended the remaining non-original independent claims so that they have a scope that is more narrow than one or more of the original claims 22-32 which survive in this application from the original patent.

CONCLUSION

All of Applicant's claims are allowable over the art of record. Applicant asks the Office to reconsider this application and allow all of the claims. Please charge any fees that might be due, excluding the issue fee, to deposit account 14-0225.

Respectfully Submitted,
